REPORT ON 'FIELD VISIT TO VERMICOMPOST UNIT'

A field visit to Vermicompost unit at Regional Agriculture Research Station, Hittinahalli was organized by Department of Botany on 02/09/2023. The purpose of the visit is to understand the building up and management of vermicompost unit that produces vermicompost one of effective biofertilizer used in organic farming. In response to the prior communication Dr. Shreshail S Karabhantanal, Principal Scientist(Ent) of Regional Agriculture Research Station, Hittinahalli guided the students onsite and gave details regarding construction, maintenance, worms used, sources of collection, methods of production and harvesting of Vermicompost and its products. He also explained about need of organic farming in this scenario where excessive uses of chemical fertilizers are disrupting the soil ecosystem and fertility. Students have gained the knowledge and also got motivated. Some students have expressed their interest in constructing vermicompost unit at their agriculture fields and make utilization. The report of the visit will be prepared by the students that need to be submitted during practical examination. Total 117 students were present during the field visit.

Report on Study Tour **(NIPER Hyderabad)**

Date: 09/09/2023

The National Institute of Pharmaceutical Education and Research, Hyderabad (NIPER Hyderabad) is an Indian public pharmaceutical research university. It is one of the seven schools under India's Ministry of Chemicals and Fertilizers. The institute offers Masters and Doctoral degrees in pharmaceutical sciences. As an Institute of National Importance, it plays a major role in human resource development for the Indian pharmaceutical industry.

As a part of the M.Sc. syllabus, we visited (18 students and 4 faculty, total 22) NIPER Hyderabad on 07/09/2023. We started our journey at 8.30pm on 06/09/2023 from KSRTC Bus stand in Vijayapur. We reached YMCA Secundrabad at 7.00am on 07/09/2023 where we had breakfast and we had to leave YMCA for NIPER at 9am and arrive at 10am. Students visited four Processing Units and two instrument labs. The first two labs had Processing Units where they gave information about drug synthesis and the basics of its composition and reducing applications, and research scholars of each of its labs explained about instruments like rotary evaporator, comb flash, and different types of instruments that are used for reducing pressure and vacuum distillation. Students visit two other processing labs. In these labs, research scholars of that lab explain about HPLC instruments and various working processes, which include sample preparation, designing unit, liquid chromatography etc. Later, students visited two instrument labs. The first one was the NMR (¹H NMR, and ¹³C NMR) instrument and the processing lab second one was Mass spectroscopy, which included ICPMS (Metal Impurity), LCMS (Non-volatile), GCMS (Volatile) and qualitative analysis. We completed our visit at 3pm and in the remaining time we went to watch the Ramanujacharya statue and then reached Vijayapur at 8.30am on 08/09/2023 by train from Nampally railway station, Hyderabad.

Overall students got good knowledge about drug synthesis, processing and various instruments like NMR, HPLC, GCMS and LCMS.
