Method of Computing per day Usage of Library by Teachers & Students

The Central Library is providing continuous services to the user community as per the requirements of the users.

In S.B.Arts and KCP Science College, the Central Library has statistical data representing the usage of Library by the User community (Teachers and Students). The Per year and per day utilization is calculating by the following formula:

Hence, the data during the Academic year 2022-23 and relevant calculation is as below:

Total Number of Teachers and students using library per year	164540	165750
Total Number of Teachers and students e-using library per year	1210	
Total Number of working day	309	
Number of Teachers	108	2006
Number of Students	1898	
Number of Teachers and Students using library per day	536.4	
Percentage per day usage	26.73%	

$$\text{The per day Usage} = \frac{\text{Total number of Teachers and Students using library per year}}{\text{Total Number of working day}}$$

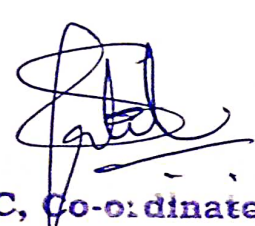

$$\text{The Per day Usage} = \frac{165750}{309} = 536.40$$

$$\text{Percentage per day usage} = \frac{\text{Total number of Teachers and Students using library per day}}{\text{Total Teachers and Students}} \times 100$$

$$\text{Percentage per day usage} = \frac{536.40}{2006} \times 100 = 26.73\%$$

$$\text{Percentage per day usage} = 26.73\%$$
