REPORT ON TED TALK

On 21/06/2023, a talk was organized by the Hindi department in the college for the students of Hindi. The topic of the Ted- talk is 'Technology My Best Friend' by - Gaurav Chaudhary said which we should not think negative while working. If we start thinking like this even before starting the work, then we will leave it before starting the work and will not be able to complete any work. As a result we will not get the result.

Knowledge does not go in vain. It is bound to be of use to you somewhere. There is no limit to the capacity to accumulate knowledge. You can store as much knowledge as you want in it. With this, in relation to the beginning of the work, it was said that the work you have to do should be done from now itself and there should be no delay in it. Because the past time never comes back. In this way the students were instructed about the method of working, importance of acquiring knowledge and punctuality.

In this context, the head of the department, professors of Hindi Department and 30 students were present.
